

GOAL!

Assembly instructions

Before getting started:

The use of the structures in any way other than as described in the instructions is at the users own risk

Always place a locking pin to assemble a tube and wooden key

NEVER climb on the structures

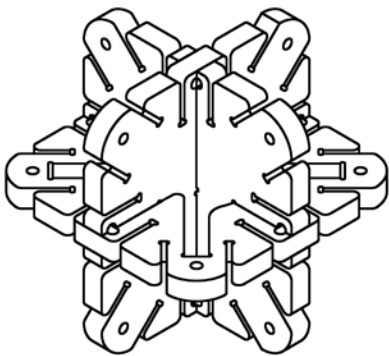

Do not place structures in windy areas or outside on windy days

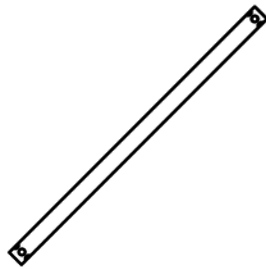

Don't hang up the structures. Do not hang anything on the structures other than what is specified in the instructions

A. To make a goal, you need

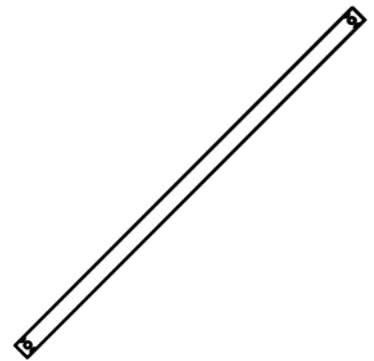

x12

Assembly keys

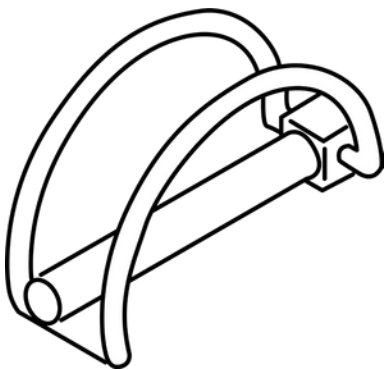

x17

Short tubes

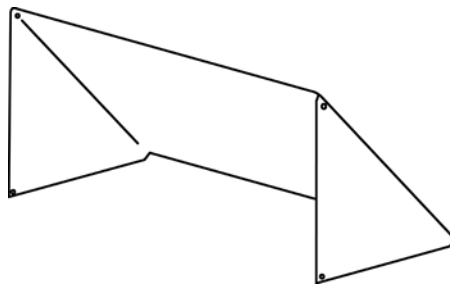

x25

long tubes

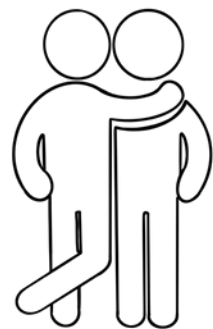

x58

Locking pins

x1

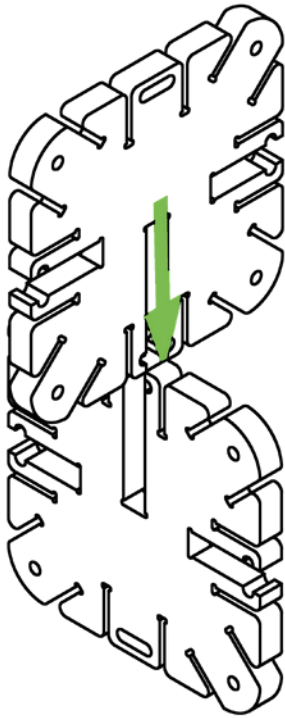

Football canvas

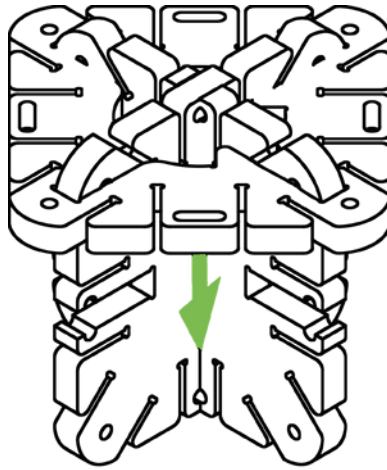

x2

People minimum

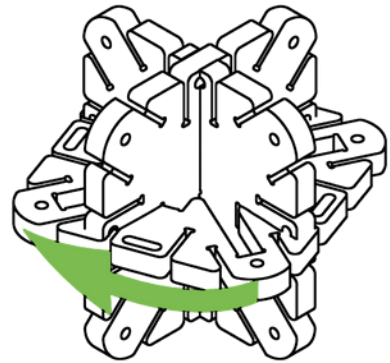

B. How to assemble a wood joint

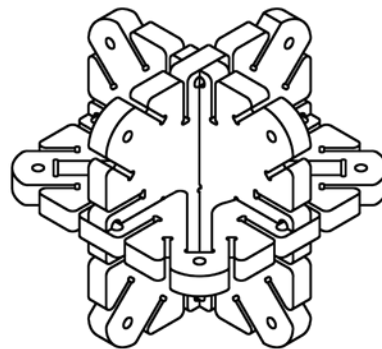

1.

2.

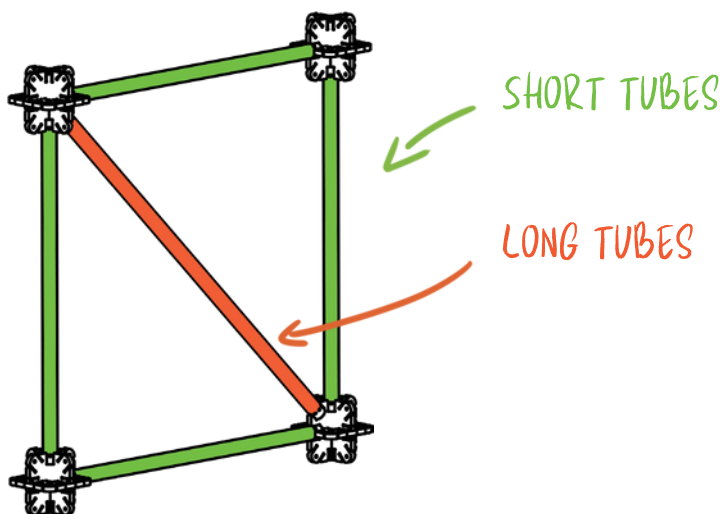

3.

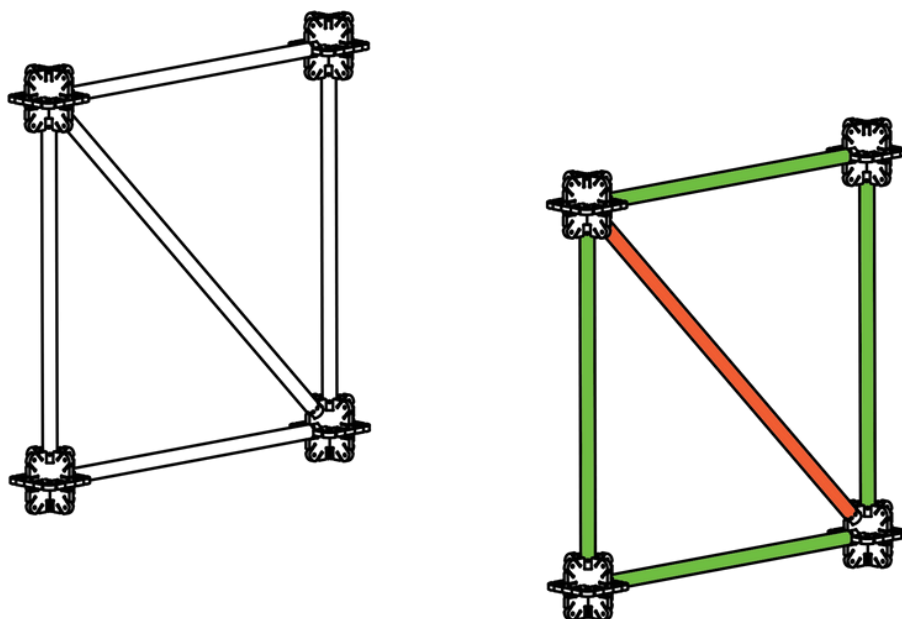

4.

C. Let's go!

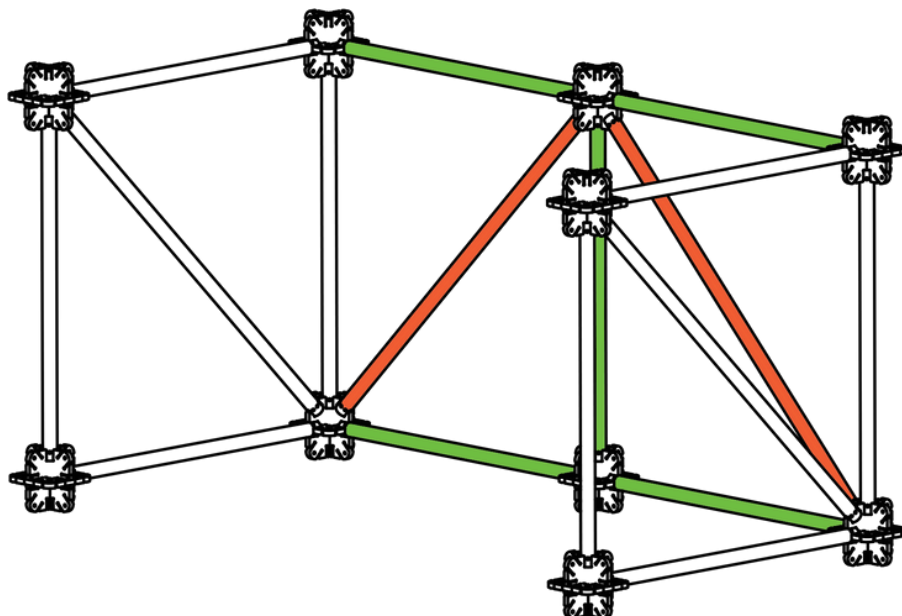

1. Assemble the first square frame. Do not forget to insert a pin each time!

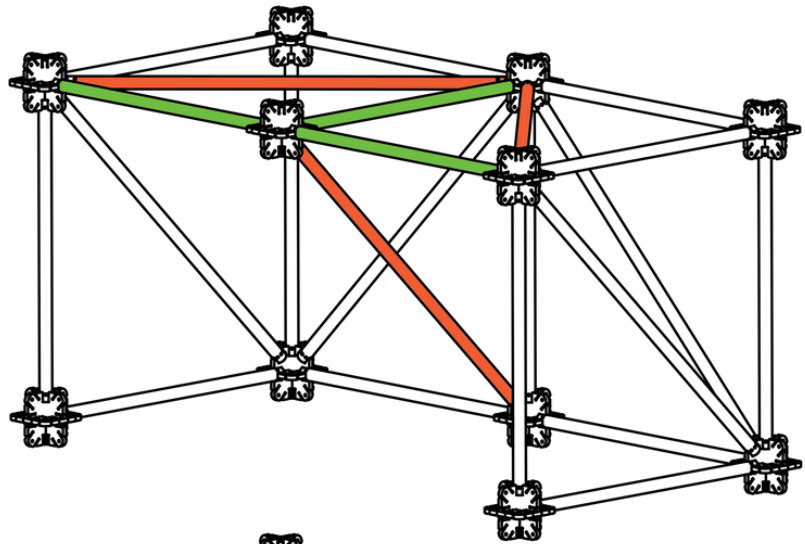

2. Assemble the second square frame in the same way.

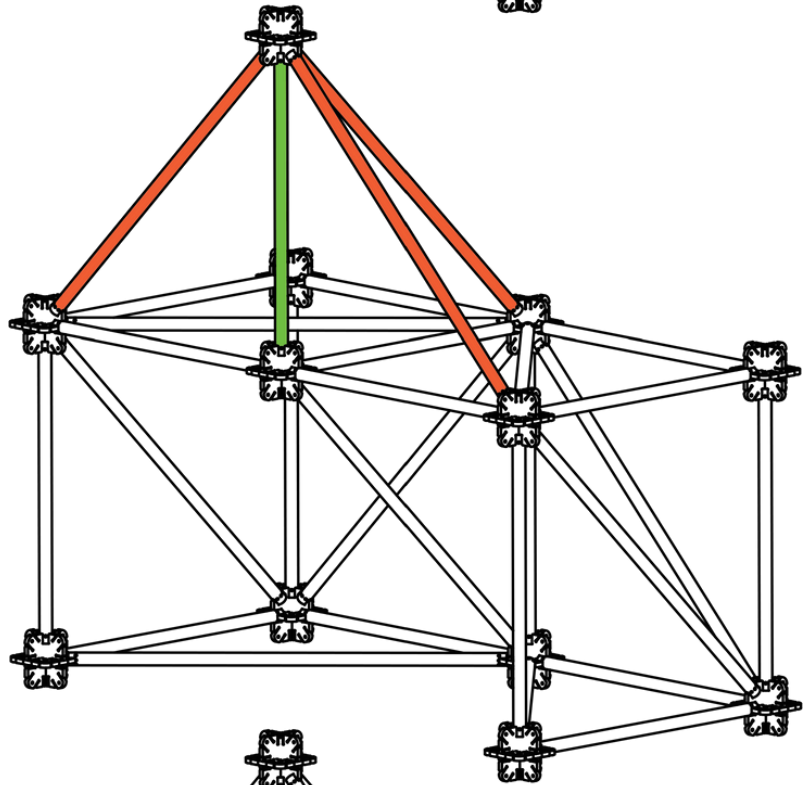

3. Connect the first two frames by separating them with two more frames.

- 4.** Repeat the steps for the top and then add a long supporting bar in the middle of the target.

- 5.** Place the top on top; you can lay the structure down for easier access.

- 6.** Attach the canvas using the tensioners and pins.
